On July 13, 2010, 27 roundtable discussion participants and more

than 100 other attendees gathered at the National Institute of

Standards and Technology (NIST) for a full-day workshop on

Usability in Health IT: Technical Strategy, Research, and

Implementation. The workshop brought together people from

the federal government, the electronic health record (EHR) and

health information technology industries, healthcare

providers, and universities to share current activities and

consider technical strategies and tactics for improving the

usability and accessibility of EHRs. The workshop was

sponsored by the Agency for Healthcare Quality and Research

(AHRQ), the National Institute of Standards and Technology

(NIST), and the Office of the National Coordinator for Health

Information Technology (ONC). AHRQ and ONC are both part

of the U. S. Department of Health and Human Services (HHS).

This report reflects the key points made during the roundtable

session and provides key recommendations that came out of

the open discussion. This report includes speakers

presentation, a person-by-person summary of each

contribution to the open discussion. This item ships from La

Vergne, TN. Paperback.
