Brand New Book ***** Print on Demand *****.The public elementary and secondary universe data used in this report are from the nonfiscal components of the Common Core of Data (CCD). The CCD is the primary NCES database on public elementary and secondary education in the United States. There are three nonfiscal components of CCD: the Public Elementary/Secondary School Universe Survey; the Local Education Agency (LEA) Universe Survey; and the State Nonfiscal Survey of Public Elementary/Secondary Education. State education agencies (SEAs) report these data through the U.S. Department of Education s EDFacts Submission System. The universe of public elementary and secondary education is composed of a complete directory listing of all public schools and LEAs for each state or jurisdiction that includes the name, address, geographical location information, and descriptive characteristics for each school and LEA (e.g., operational status, type, charter status). The universe also includes aggregate counts of students in membership for each state, LEA, and school by grade and student demographic characteristics (e.g., race/ethnicity, sex) and aggregate counts of teachers and other staff in key occupational categories that are commonly found in schools.
