Dept. of Labor, Occupational Safety and Health Administration : For sale by the U. S. G. P. O. , Supt. of Docs. , , 2000. OCLC Number: (OCoLC)46546720 Subject: Chemicals -- United States -- Safety measures -- Handbooks, manuals, etc. Excerpt: . . . 11 Under the rule, the role of MSDSs is to provide detailed informa-tion on each hazardous chemical, including its potential hazardous effects, its physical and chemical characteristics, and recommenda-tions for appropriate protective measures. This information should be useful to you as the employer responsible for designing protective programs, as well as to the workers. If you are not familiar with material safety data sheets and with chemical terminology, you may need to learn to use them yourself. A glossary of MSDS terms may be helpful in this regard. Generally speaking, most employers using hazardous chemicals will primarily be concerned with MSDS information regarding hazardous effects and recommended protective measures. Focus on the sections of the MSDS that are applicable to your situation. MSDSs must be readily accessible to employees when they are in their work areas during their workshifts. This may be accomplished in many different ways. You must decide what is appropriate for your particular workplace. Some employers keep the MSDSs in a binder in a central location (e. g. , in the pickup truck on a construc-tion site.) Others, particularly in workplaces with large numbers of chemicals, computerize the information and provide access through terminals. As long as employees can get the information when they need it, any approach may be used. The employees must have access to the MSDSs themselves - simply having a system where the information can be...
