SIMPSON S REMARKS. be looked to for the numerous multitude of water-worn stems and roots strewed almost everywhere along the beach. Their southern origin would also seem to be indicated by the presence in many of them of the remains of the Teredo navalis, which could hardly retain life throughout the rigour of eight or nine months frost every year. It would seem that between St. Lawrence Island and the coast of Asia the current is variable, and seldom entirely free from ice until late in July; hence the many disasters to whalers in 1851, and the difficulties the Dcedalus and Enterprise encountered the same season by...
